Don't Take Our Word For It

Join 22,500+ People Who Finally Found Relief

For three years, I used a walker just to get from my bedroom to the kitchen. Six weeks into Total Renew, I realized the walker was still against the wall — and I'd completely forgotten about it. On my daughter's wedding day, I took her arm and walked her down that aisle without thinking about my knees once.

Robert M., 67

Verified Buyer

For seven years, my husband Hank knelt in front of me every morning to put on my shoes. He never complained. But every time, something inside me broke a little. In week five of Total Renew, I bent down and did it myself — no pain, no help. It wasn't about the shoes. It was about my dignity.

Gloria T., 62

Verified Buyer

When arthritis took my fingers, I couldn't hold a screwdriver or button my own shirt. After seven weeks of applying Total Renew, I sat at my workbench and repaired two watches in the same week. My hands are back. And honestly, so am I.

Arthur B., 73

Verified Buyer

I used to make excuses every time Sophie asked me to play outside. I had a knee replacement scheduled and I was terrified. Six weeks into Total Renew, I canceled the surgery. Eight weeks in, I pushed her on those swings until my arms got tired — not my knees.

Linda W., 68

Clinically Dosed Ingredients

Backed by 100+ Scientific Studies on Joint and Nerve Pain

Stops the Destruction Before It Goes Any Further

Most treatments mute the alarm while the real problem keeps going. Total Renew targets the microscopic enzymes destroying your cartilage at the source — and silences the signal that tells them to attack. The cycle of destruction that's been running inside your joints for years finally stops. Not temporarily. At the root.

Restores Natural Joint Lubrication

Chronic inflammation depletes the synovial fluid that keeps your joints moving smoothly. Without it, every step feels like bone grinding on bone. Total Renew replenishes the key components of that fluid directly at the joint, so the grinding and stiffness gradually give way to the smooth, fluid movement your joints were built for.

Rebuilds What Was Lost — From the Outside In

Once the destruction slows, your body needs the right tools to repair the damage. Total Renew delivers clinically studied compounds directly through the skin to the joint tissue — no detour through the stomach, no absorption loss. Straight to where the reconstruction needs to happen.

Protection That Lasts Beyond the Bottle

The six-month protocol gives your body time to complete a full repair cycle — stop the destruction, rebuild the tissue, fortify the joint. The cartilage you build is real, functional tissue. It doesn't disappear when you stop. A simple maintenance routine afterward is all it takes to keep it that way.

Nature's Best in Balance

Pure and natural ingredients:

✓ Melittin (Bee Venom Extract)

The cornerstone of the formula. Research from Washington University in St. Louis showed that Melittin, applied topically, penetrates through the skin directly to joint tissue — where it cuts off the inflammatory signal that triggers cartilage-destroying enzymes (MMPs). When the signal stops, the destruction stops.

✓ Boswellia Serrata

Validated by research in the Indian Journal of Pharmaceutical Sciences, Boswellia blocks the same inflammatory pathways as cortisone injections — without the side effects and without wearing off. It works alongside Melittin to keep the joint environment stable and prevent the destructive enzymes from returning.

✓ Hyaluronic Acid

Standard Hyaluronic Acid can't pass through the skin. The low-molecular-weight version can — reaching the synovial space inside the joint and replenishing the natural lubricant that years of inflammation have stripped away. Less grinding. More glide.

✓ Apigenin (from Chamomile)

A flavonoid found inside chamomile that directly reduces the production of MMP-3 and MMP-13 — the enzymes destroying your cartilage. While Melittin cuts the attack signal, Apigenin reduces how many of those enzymes your body manufactures. A clinical trial from the University of Medical Sciences in Shiraz confirmed meaningful pain reduction and improved mobility with topical chamomile application on arthritic knees.

✓ Type II Collagen

Formulated at a molecular weight specifically designed to be absorbed through the skin. Clinical trials at Harvard Medical School showed this form of collagen signals the body to stop attacking its own cartilage and start regenerating new tissue. Once the destruction is stopped, this ingredient puts the construction crew to work.

90-DAY MONEY-BACK GUARANTEE

Give it three full months. Apply it, feel the difference, and decide for yourself. If you don't experience a meaningful improvement in pain, stiffness, and mobility — for any reason — contact our team and we'll refund every dollar. No questions. No hoops. You don't even need to return the jars. The risk is entirely ours.
